

No	Machine Name	Technical parameter	
1	Intelligent horizontal slicer	Function	Intelligent horizontal slice meat with multi functions
		Material	304 stainless steel
		Belt width	254mm
		Power	2.08kw
		Belt speed	5-20m/min adjustable
		Input/output height	1050+-50mm
		Cutting speed	60 pieces/min (chicken breast)
		Weight error	Less than 8%
		Overall dimension	2512×1180×1610mm

---

## Machine functions

1. Thickness control

2. Rough edge clean up

3. Slicing to achieve a certain weight

4. Upper parts and lower parts have the equal weight for each chicken breast.
